

Online Movie Booking System

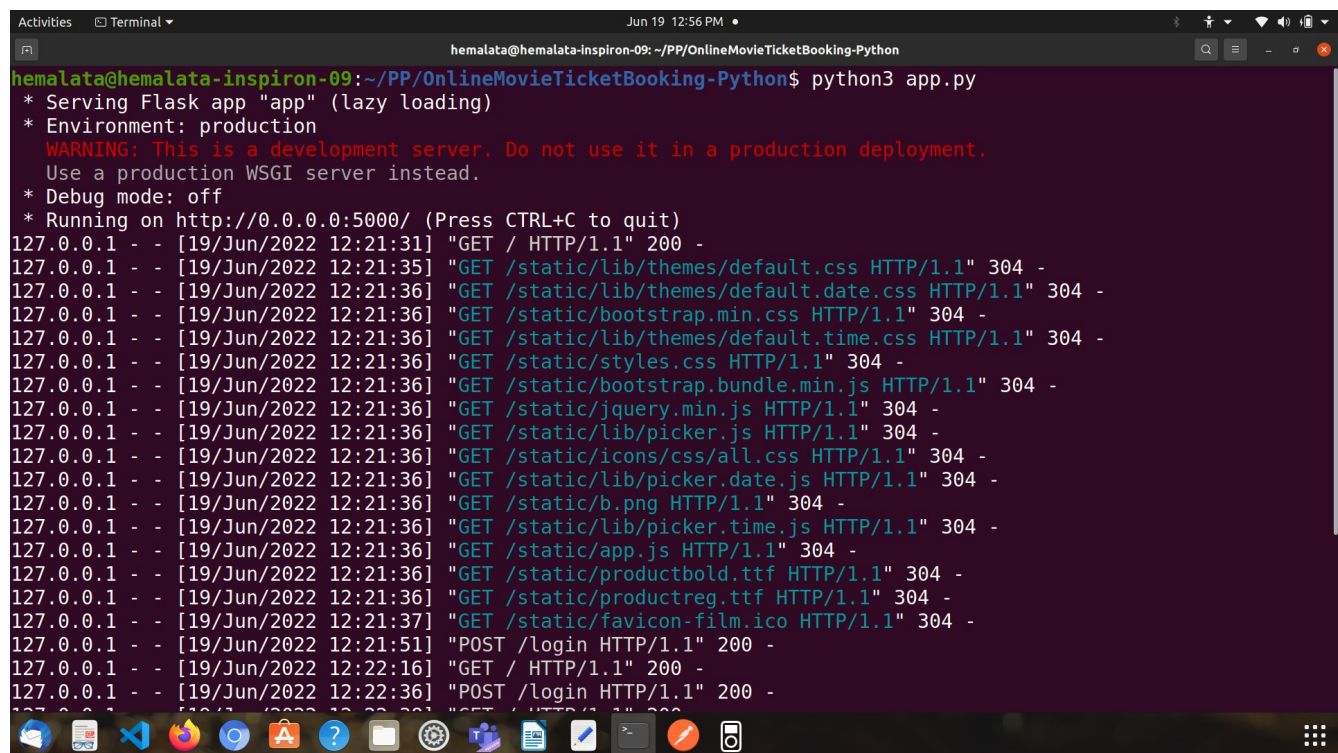

Movie Ticket Booking System project focuses mainly on keeping track of movie booking details. To be more precise, the system helps to keep track of theater movies with respect to their depth information.

Also, the system displays all pricing lists according to day and type. In addition, the system allows viewing booking details and more

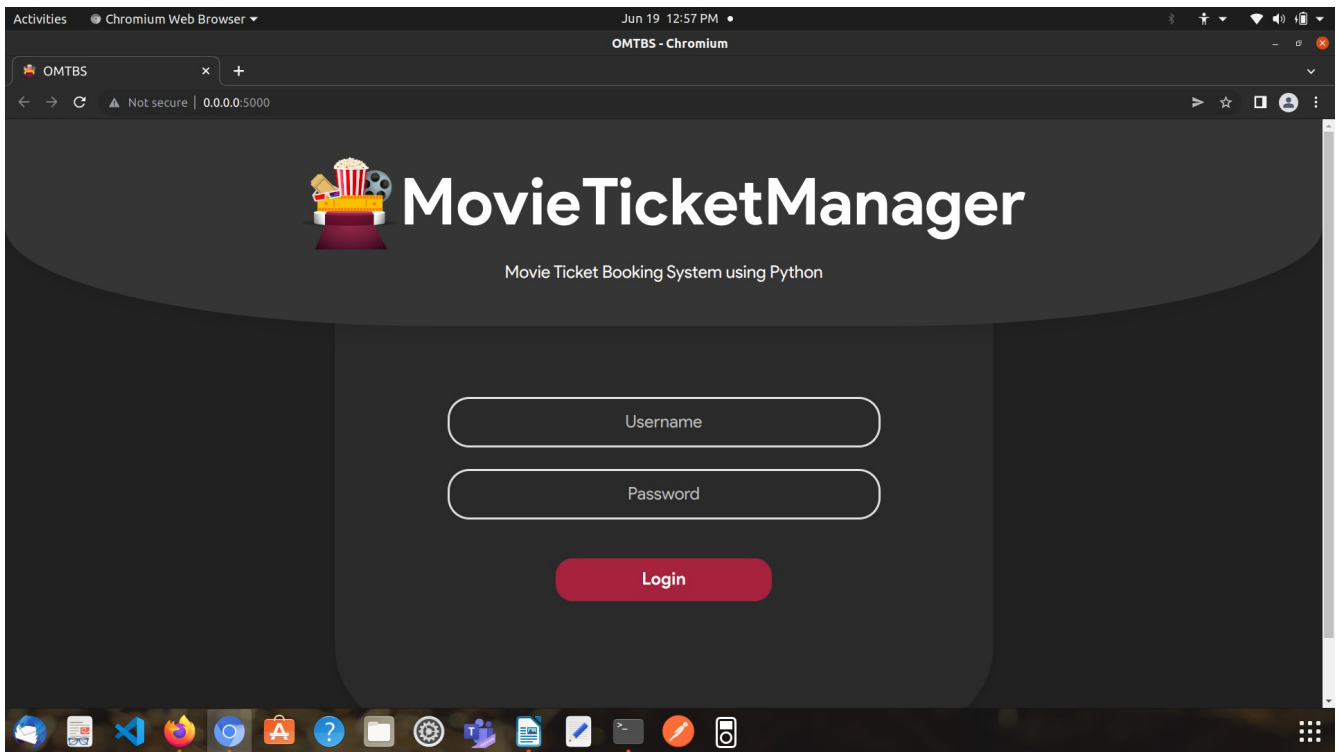

Evidently, this project contains a manager panel with a cashier panel. In an overview of this web application, the manager has full control over the system. He/she can manage movies, schedule movies, alter ticket prices, and list booking details.

Available Features:

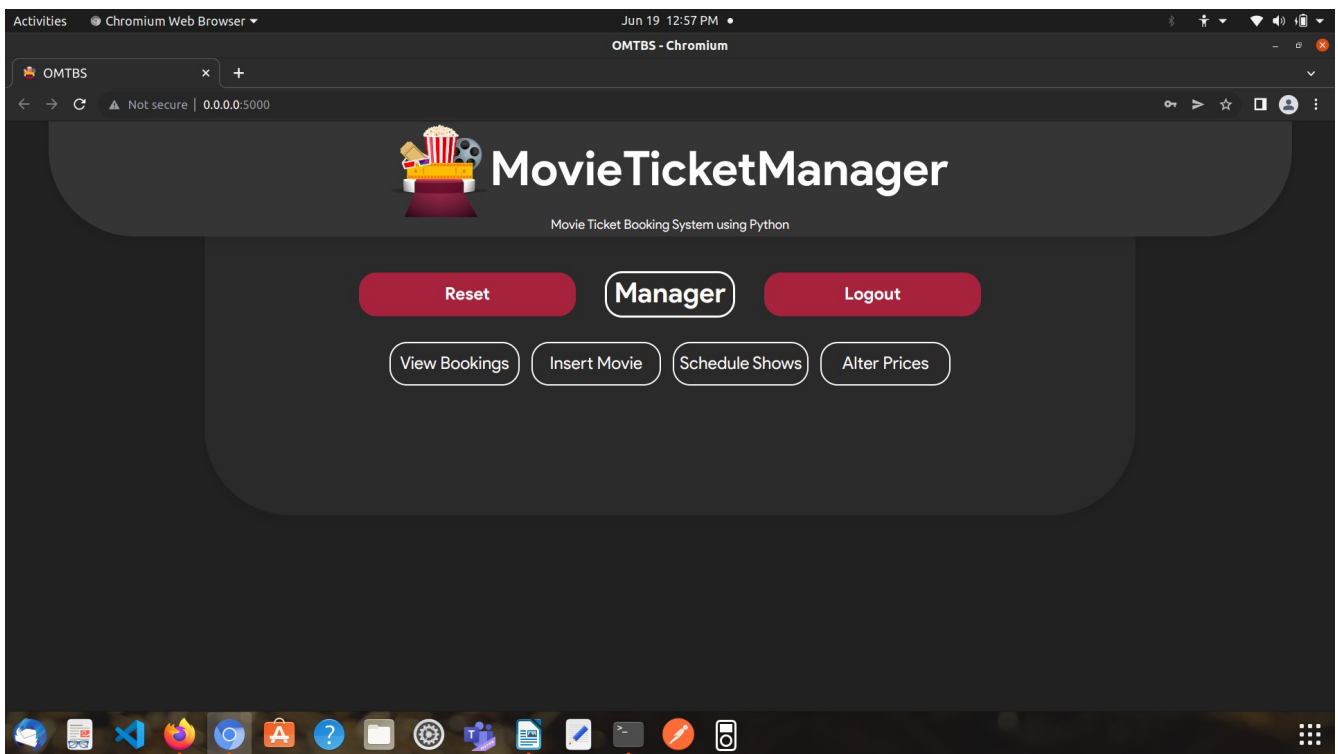

- Manager Panel
- Cashier Panel
- Add Movies
- Schedule Shows
- View Booking Details
- Alter Ticket Prices
- Make Bookings
- Seat Selections
